Crying helps...  

… keep me safe

Hearing your baby cry is stressful.  
There is a reason for this. Crying is your baby’s way of getting your attention. Your baby learns that when he cries you will take care of what he needs. WIC can help you understand what your baby’s trying to tell you. Just ask us! 

Created by the UC Davis Human Lactation Center as part of the FitWIC Baby Behavior Study. This project has been funded at least in part with Federal funds from the U.S. Department of Agriculture, Food and Nutrition Service. Adapted by KDHE/WIC 8-15.
